

Biosecurity

# KEEP PESTS, WEEDS & DISEASES OFF YOUR FARM

Facilitated by Doris Blaesing | Joined by the Government's Chief Plant Protection and an Animal Health Officer for Tasmania

**AN RFT WEBINAR**

**21ST JANUARY 2025**  
12:00PM - 1:00PM

Are you a farmer, agronomist, field officer or have a stake in protecting Tasmania's plant and animal industries?

Join us for an interactive biosecurity webinar with the Government's Chief Plant Protection and an Animal Health Officer for Tasmania, focused on preparedness and response when new pests or diseases are identified.

## What will be covered:

- **Early detection strategies:** How to identify signs of emerging threats.
- **Immediate response steps:** What happens when a new pest is detected in Tasmania.
- **Best practices for biosecurity:** How to protect your property and the wider region.
- Where to get help and find useful information.

## Our Presenters:

- **Presenters from the DNRE Plant Biosecurity & Diagnostics Branch | Biosecurity Tasmania**
  - Dr Susanna Driessen, Chief Plant Protection Officer
  - Peter Cross, Team Leader, Plant Pathology
  - Jamie Davies, Team Leader Entomology
- **Presenter from Animal Biosecurity & Welfare Biosecurity Tasmania**
  - Dr Tahlia Royce, Animal Health Officer
